

Greece Breaks With Central Powers

DIPLOMATS OF HELLENIC POWER TO BE RECALLED

Formal Entry Into Conflict Said to Be Only Matter of Time

PEACE TOO SOON A DISASTER SAYS GEORGE

Germany Wants to End Struggle Now Merely to Her Economic Advantage

Athens, June 28.—Though war has not yet been declared, the Greek government considers that a state of war exists since its advent to power yesterday. The recall of the Greek diplomatic representatives accredited to the central powers and their allies is imminent.

The Greek government has broken diplomatic relations with Germany, Austria-Hungary, Bulgaria and Turkey.

Greece's new war course began to shape on June 12 with the abdication of King Constantine and the accession of Alexander, his second son, as king. The abdication was in effect a de facto declaration of war, whose pro-German attitude had given the entente endless trouble.

M. Venizelos, Greece's leading statesman, was summoned back to the premiership by King Alexander. He quickly formed a cabinet, and the re-establishment of Greece's constitutional government began after being virtually abolished.

BREAK RELATIONS.
Paris, June 28.—Telegraphing from Athens today, the correspondent of Le Temps says:

"The Greek government has directed its minister to Switzerland to communicate to the Greek legations at Berlin, Vienna, Sofia and Constantinople, instructing the ministers to break diplomatic relations between the Greek government and Germany, Austria-Hungary, Bulgaria and Turkey. The Greek ministers are instructed to leave their posts with their staffs and to place archives with the nearest neutral legation."

"The rupture is based on the incompatibility of maintaining diplomatic relations with governments that are carrying on war in Greek territory."

Glasgow, June 28.—In discussing the question of peace Premier Lloyd George said if the war should be concluded a single hour before the allied powers reached the end they set out to attain at the beginning of the war it would be the greatest disaster that ever befell mankind.

"In my judgment," he said, "this war will end when the allied powers have reached the end they set out to attain when they accepted the challenge thrown down by Germany. Then this war ought to come to an end, but if it comes to an end a single hour before, it will be the greatest disaster that ever befell mankind."

"I hear people say that Germany is ready to give us a satisfactory peace. No doubt you can have peace at a certain price, for no doubt Germany wants peace. But it is a peace which would give her an economic and other control over the country she has invaded."

FOIL GERMAN PLOT TO BLOW UP NORWEGIAN CRAFT

London, June 28.—An account of a German plot to blow up Norwegian steamships was given in the Storting yesterday by Foreign Minister Ihlen, says a dispatch from Copenhagen. M. Ihlen declared the bombs were sent to Norway by the German foreign office by means of a messenger from the German legation. The Norwegian legation at Berlin has been ordered to make a protest. Norway, the minister says, is now awaiting the German reply.

After the examination of the messenger had been concluded he was handed over to the Germans on condition that action be taken against him and that he should not be used again as a messenger to Norway.

Belgian Commission To Visit the West

Washington June 28.—Members of the Belgian war commission will leave Washington Sunday for the Pacific coast. The first stop will be in Chicago Monday morning from there the party will go via St. Paul and Spokane to San Francisco and Los Angeles. It is expected the tour will take three weeks.

Janitor's Baby Is Guest Of Vice President's Wife

Washington, D. C., June 28.—Baby Clarence Morrison is in society.

He's 10 months old and the son of the janitor of St. Paul's rectory, but while his mother is looking for a job as chambermaid, Clarence is the guest of Mrs. Thomas R. Marshall, wife of the vice president. A nurse looks after his comforts and needs and he is being petted and treated royally by the highest society folk of Washington.

Of course Baby Clarence does not know how it all came about. His mother happened to bring him to the Washington diet kitchen, of which Mrs. Marshall is in charge. She was struck by his pleasant disposition, so

she asked Mrs. Morrison for permission to keep Clarence a few weeks as her guest.

While Clarence is enjoying society and riches, his mother is looking for work to be able to redeem the household furniture she has in storage. Three other Morrison children are preparing to welcome Clarence when he returns from society.

Clarence sleeps most of the time, but he'll soon be teething, says Mrs. Marshall, then he'll be awake most of the time. Two or three times a week she takes the baby to the diet kitchen headquarters, where Clarence is being fed on an approved scientific menu. Mrs. Morrison expects to take back her baby in about three weeks.

HOLDS DEPUTIES ONLY EVIL-DOERS; PALDA IS FREED

Important Rulings Made by Judge Leighton in Granting Writ of Habeas Corpus

SEIZURE OF TELEPHONE EXCHANGE WAS FELONY

Minot, N. D., June 28.—That the only persons committing an offense during the incidents at the telephone office the night of the raid in Minot, May 7, were those who went there and unlawfully took possession of the place, is the finding of Judge K. E. Leighton of the district court, in his decision granting Paldia his freedom on a habeas corpus action of Attorney L. J. Paldia, which was filed at the office of the clerk of the district court yesterday.

Story of Raid.
As was stated in the press at the time of the raid, Attorney General William Langer deputized a number of citizens in the capacity of deputy sheriffs. Three of the deputies, Grant S. Youmans, A. Upton and F. C. Upton, accompanied Langer to the telephone office and seized the exchange, ordering the girls to leave the switchboards. Manager McGuire of the telephone company went to the office to ascertain the cause of the trouble in the service. He was met by Langer and his assistants. McGuire left the building and secured the company of Attorney L. J. Paldia, attorney for the telephone company, and other citizens. They proceeded to the telephone office and Paldia demanded that the deputies show their authority.

No process of law, legalizing the seizure had been gone through and Paldia went to the switchboard hoping to be able to make a connection with Judge Leighton's residence and find out if the judge had given the deputies authority. He was ordered back from the board by A. Upton. Guns were drawn and, as a result, Paldia was arrested for threatening to shoot A. Upton. At the preliminary hearing before Justice A. B. Dill, Paldia was bound over to the district court. Attorney Dudley Nash, acting for the accused, immediately made application for habeas corpus, claiming the evidence was insufficient to warrant Paldia's commitment to the higher court. The decision of Judge Leighton, filed yesterday at the district court office, grants the writ and discharges Paldia, the defendant.

Paldia Doing Duty.
"I am unable to find any place in the testimony which shows that any offense was committed except by those who went there and unlawfully took possession of the telephone office," says Leighton in his opinion. "Consequently, the crime for which Paldia was charged has not been committed. The testimony is undisputed that Paldia was acting on behalf of the Northern States Power company, and was using only such legal means as he had the right to in order to protect that property."

"The state has advanced a novel proposition—that the telephone exchange was a criminal agency assisting in the commission of crime, and therefore the sheriff had authority to stop all telephone calls while arrests were being made. There is no competent evidence that the telephone exchange was engaged in the commission of crime. Even if such were the fact, I know of no law which would justify the deputies' acts—especially when we remember that section 10231 of our statutes makes such act a felony."

DUNN CASE MAY REACH JURY TODAY

St. Paul, Minn., June 28.—The Dunn case has gone to the jury.

St. Paul, Minn., June 28.—The fate of Frank J. Dunn, charged with first degree murder as alleged instigator of the murder of his wife, probably will rest in the hands of the jury today. The state's attorney concluded his arguments shortly after noon and was followed by Dunn's chief counsel.

Dollar a Drop Rain Blesses Slope Region

More Than Quarter-Inch Precipitation Recorded in Less Than Two Hours

WETTING SEEMS TO BE CONFINED TO SMALL AREA

A dollar-a-drop rain visited the Slope region this morning and in less than two hours 27 hundredths of an inch precipitation was recorded at the state weather bureau here.

"So far as I can learn from present reports," said O. W. Roberts, meteorologist, in charge of the United States weather bureau for North Dakota, "the rain was confined to the Slope. It was general, however, throughout this region, and it did a world of good."

Business men, bankers, professional men, farmers in the city, backyard and vacant lot gardeners, knocked to windows and doors and watched with faces wreathed with smiles the heavy patter of the God-given rain. It came at a time when a few days' more drought might have been serious.

Fear was expressed this forenoon in the presence of Judge E. T. Burke, born and raised on a North Dakota farm, that the high wind which followed the rain might undo much of the good through rapid evaporation. "Finest thing that could happen," said the judge. "The grain is high enough to shade the ground and prevent the wind from striking it, and at the same time the rain will quickly whip from the stalks moisture, which if it remained, might cause rust. It's an ideal condition."

Lightning Strikes.
During the rainfall in Bismarck a fork of lightning trailed some wires into the attic of Rev. G. B. Newcomb's home on Sixth street and started a blaze which was nipped in its incipency with very little damage resulting.

GREAT NORTHERN CANNOT RECOVER FROM EQUITY

St. Paul, Minn., June 28.—Although there was fraud against the Great Northern railroad, its special agent, Jay Greer, cannot recover from the Equity Co-operative exchange and others for the value of a car of wheat diverted in transit, the Minnesota supreme court held today, on Greer's appeal from the judgment of the Ramsey county district court, which is confirmed.

The wheat was loaded October 15, 1915, in a Great Northern car at Brookland, N. D., by two farmers there, J. J. and O. A. Wolstead, and consigned to the Marfield Grain company at Duluth. At Willmar, the shipment was diverted to St. Paul, through a falsification of manifests in the railroad records.

THARALDSON TO REVIEW TROOPS AT FORT LINCOLN

Adjutant General Tharaldson whose term expires tomorrow, will review the troops at Fort Lincoln tonight for the last time in his official capacity.

The Elka band of Bismarck has tendered its services. It was understood that the function was to have been a governor's review but whether the chief executive approves is not known. One military man reported that Governor Frazier would not be present. The public generally is invited to attend the dress parade tonight. Major Fraser assumes charge of the adjutant general's office Monday.

WOULD TONE DOWN BONE DRY FEATURE

Prohibition Bill to Food Control Measure Endangers Its Success in Senate

PRESIDENT WILSON FORCED TO ENTER CONTROVERSY

Desires to Have Expediency of Curtailing Liquor Traffic Left to Him

Washington, June 28.—A determined effort to modify the food bill now before the senate so that it will be free from any prohibitive provisions or at least so as to grant the president authority to permit the use of foodstuffs in the manufacture of beer, light wines, etc., was begun today by the administration, when President Wilson conferred on the question with Senator Martin, the majority leader, and Senator Gerry.

Not Desirable.
President Wilson, according to Senator Phelan of California, with whom he also conferred regarding prohibition legislation, desires that he have authority to stop the manufacture of malt and vinous liquors, in case of emergency, but does not believe immediate prohibition of their manufacture is necessary or desirable.

The president was understood to feel that the insistence of some senators on "bone dry" legislation endangered the early passage of the food bill, which he is anxious to see become law as soon as possible. Administration leaders were said also to feel that such legislation would be a disturbing factor in the economic life of the country and might lead to serious discontent among the workers, whose whole-hearted support is necessary to win the war.

Situation Hopeless.
The president realizes that since prohibition has been made an issue in congress, it is almost impossible to hope for the elimination of some sort of prohibition provisions from the food bill. "It was understood that the president would be willing to accept a measure under which the use of foodstuffs and fruits, in the manufacture of beverage alcohol was forbidden, but with authority given him to permit their use in making beer and light wines."

CASHIER HELD FOR RETARDING LIBERTY LOAN

Powers Lake Banker Under Bond to Answer to Serious Charge at Minot

Fargo, N. D., June 28.—M. N. Ledene, cashier of a bank at Powers Lake, arrested Wednesday afternoon on a warrant charging him with retarding the sale of Liberty bonds, waived examination before U. S. Commissioner R. E. Hopkins at Minot, and furnished a bond in the sum of \$500. The case will be tried at the Minot term of federal court.

ST. PAUL SYSTEM MAY ELECTRIFY PRAIRIES

Survey Being Made at Big Bend Indicates Intention to Use

Big Muddy for Power

Pierre, S. D., June 28.—That the Chicago, Milwaukee & St. Paul contemplates the extension of its railway electrification from the mountains to prairie divisions, a report given credence through the activities at Big Bend, several miles down the Missouri, of a corps of the company's engineers. The St. Paul system touches within 12 miles of Big Bend, where an unlimited quantity of power easily could be developed from the strong current of the Big Muddy.

Charge of Wife Against Pigger Recalls Saloon

Linton, N. D., June 28.—Reminiscence of old saloon days is a complaint alleging blind-drinking sworn out against Don Bidwell of Hazelton who claims a member of her family became gloriously afflicted on prune juice and carbollic acid, dispensed as booze by said Don.

GUARD MAY NOT BE CALLED TILL AUGUST FIFTH

Pointed Out That Inequalities in Rank Would Result From Following First Plan

STATE TROOPS PROCEED DIRECT TO BIG CAMPS

Companies Will Not Be Held at Home Stations or Local Mobilization Points

"If the national guard is not called out until Aug. 5 it probably will mean that North Dakota companies will not leave for their concentration camp until Aug. 15," said Adjutant General Tharaldson when advised of the Associated Press from Washington today. "Our original advice was that the troops would be held at their company stations for two weeks after the issuance of the call. The war department, of course, may have changed its mind since that time."

June 20 the first regiment was short 800 men of full war strength. The companies in some of the larger towns, such as Minot and Fargo, were then short from 80 to 90 men. Authority has been granted for the organization of a second regiment, but we will not go into that until the first is fairly well filled."

Washington, June 28.—National guard regiments will be sent forward to their divisional mobilization camps in the south immediately after they have been drafted into the federal service. Heretofore it was expected that because of lack of tents, it might be necessary to keep many regiments at their home armories or state mobilization points for an indefinite period.

May Postpone Call.
The exact date of the application of the draft to the guard is still under discussion. Present orders are that the eastern sections of the country shall be drafted July 15, the central, July 25, and the western, August 5.

It has been pointed out that inequalities in the relative rank among national guard officers would result from this three-increment plan, and the war department is debating the advisability of postponing the application of the draft to August 5 and covering the entire guard at that time in one operation.

May Issue \$500,000 in War Bonds

Washington, June 28.—The senate finance committee today considered the question of an additional war bond issue of half a billion dollars proposed by Senator Stone. It was hoped to reach a decision on this point today as well as the rate to be imposed on excess war profits. This probably will amount to 16 per cent.

Progress Made In Building Sub Chasers

Washington, June 28.—Rapid progress is being made in the construction of the hundreds of submarine chasers recently ordered by the navy department. At the New York yard dozens of the chasers have been completed already, although the original plans called for the production of only one during the month of June. In August, the yard will begin to deliver boats at the rate of three a day and will keep that up until the big order has been filled.

At the present time the engine production for the boats is a little behind schedule. Definite assurances have been received, however, that the engine builders will be ahead of schedule before August.

Brother of Former Greek King May Marry American

London, June 28.—Special dispatches from Athens say Prince Christian, brother of former King Constantine of Greece is coming to London to marry a rich American woman. The Daily Chronicle gives the name of the woman as Miss Lita, without details as to her identity.

Kills One Guest and Attacks Two

Invites Three Women to Dinner at Cottage Then Binds Them Hand and Foot

TWO SURVIVORS SUFFER FROM WOUNDS AND SHOCK

Laconia, N. H., June 28.—Miss Alice Black Richards was attacked and murdered and her two companions, Miss Elizabeth Sues and Miss Dorothy Davis, were also victims of an attack at a cottage at Lake Winnepesaukee last night. Morris P. Bradford gave himself up today and is held by the police in connection with the crimes.

Invited to Dinner.
According to the story told by the two women the three were invited to dine with Bradford at his cottage. They accepted, but while in the house were each bound hand and foot and attacked. He cut Miss Richards' throat and struck the others over the head and cut off their hair. After he left one of the young women managed to free herself, but Miss Richards had succumbed from her wounds.

Miss Richards was head teacher at the school for the feeble minded here, and Miss Sues and Miss Davis were also connected with the school. The latter two suffered today from wounds on the head and nervous shocks which followed the attack and could give but brief statements. Bradford is to be given a hearing today.

RAISE MORE HOGS ADVICE OF GOVERNMENT

Figures Indicate Falling Off in Production in 1916 Over That of 1915

BEST ANIMAL FOR FOOD RESULTS AND PROFITABLE

Washington, June 28.—The praises of the hog as a meat producing animal are sung by the department of agriculture in an appeal today to farmers to raise more hogs, and still more hogs, as the quickest and surest way of increasing the nation's meat supply.

"The hog is the most important animal to raise for meat and money," the statement says. "He requires less labor, less equipment, less capital, makes greater gains per hundred pounds of concentrates, and reproduces himself faster than any other domestic animal. As a consumer of by-products he has no rival. No other animal equals the hog in its fat storing tendencies. There is no animal which produces more meat and meat products than the hog."

Very near 50 per cent of the total value in dollars and cents of the meat and meat products slaughtered in the packing houses of the United States is derived from the hog. Three-fourths of the world's national trade in pork and pork products comes from the United States in normal times, and the war has increased this proportion.

The statement then points out that there was a decrease of 313,000 hogs at the end of 1916 as compared with 1915, and adds:

"If we expect to provide meat for foreign exports as well as home needs, every farmer must put forth efforts to raise more hogs."

TOO MANY FENCES TURN BACK BIG TRAIL HERD

Marmarth, N. D., June 28.—Jack O'Bannon and Nels Rasmussen, who recently set out for the Indian reservation south of Waukegan with the largest trail herd driven over the Dakota prairie in many a year, were turned back by an over abundance of fences in their path and they are grazing their 2,500 cows on the gumbo prairie south of Dodge. Later the cattle will go by rail to the territory, where the old cattleman have leased a tract large enough to supply grazing for the entire summer.

I W W AGITATORS CONSENT TO LEAVE; BAIL REFUNDED

Duluth, Minn., June 28.—Elizabeth Gurley Flynn, New York industrial workers of the world organizer, who was arrested here last Saturday in connection with a police raid on Duluth I. W. W. headquarters was released on charges of vagrancy last night and her bail refunded. Miss Flynn told the city authorities that she wished to leave the city and they thought this arrangement was the easiest way out of the situation.

HAIG DRAWING CLOSER TO LENS BY HARD DRIVE

British Commander Is Aiming at Far Flanks of Coal Fields

GERMAN ATTACK ON VERDUN IS REPULSED

Crown Prince Has Temporary Successes in Aisne District—French Win Positions

(By Associated Press.)
The important development at present in military affairs is the cumulative pressure which General Haig is applying to the German lines about the coal city and mine fields of Lens. The operations now seem to have taken on a somewhat broader scope, suggesting that the British commander is aiming at the far flanks of the Lens positions in a wide encircling movement, while keeping up the push here and there on the immediate outskirts of the city.

Capture German Position.
Some six miles to the south, near Oppy, the British last night captured a German position on a front of more than a mile. Closer to Lens on a wide front, south of the Souchez river, the British continued to gain. They have entered Avion within two miles of Lens, thus drawing considerably tighter the lines immediately about the coal town.

On the French fronts the Verdun district has again sprung into prominence. The Germans have been manifesting renewed activity there and last night they delivered a powerful attack after a heavy bombardment on a front of a mile, near the famous Hill No. 304, northwest of Verdun. They gained a few footings but were completely repulsed when they renewed their attacks today.

Crown Prince Attacks.
The crown prince also attacked in the Aisne district, notably in the Cerny region, where his troops obtained a foothold in the French trenches, but were driven out by an energetic counter attack.

Hints have been coming out of Germany that next week's session of the German reichstag might witness some statements on the subject of peace by Chancellor von Bethmann-Hollweg. Rumors to support the suggested peace movements are supported by reports of mysterious political happenings within the German empire. The impression has been given that the expected developments would be of a dramatic nature and the press seems to have been completely muzzled so far as discussion of political topics is concerned.

REVOKES NEUTRALITY.
Rio Janeiro, June 28.—Brazil has revoked her decree of neutrality in the war between the entente allies and Germany.

The Brazilian government by act of congress late in May authorized the revocation of Brazil's neutrality in the war between Germany and the United States. In notifying the Brazilian legations of the sanction of the revocation, Nilo Pecanha, the foreign minister, in a note, said Brazil up to that time had refrained from taking sides in the European conflict, but that the republic could not remain indifferent from the moment the United States found itself involved in a struggle for the rights of the people and when Germany meted out indiscriminately to Brazil the most brutal treatment.

A dispatch from Rio Janeiro June 9 said that diplomatic exchanges with representatives of the entente powers were in progress and that practical results might be expected shortly.

It was added that warnings of the entente would be permitted to visit Brazilian ports without adhering to time limits imposed by neutrality.

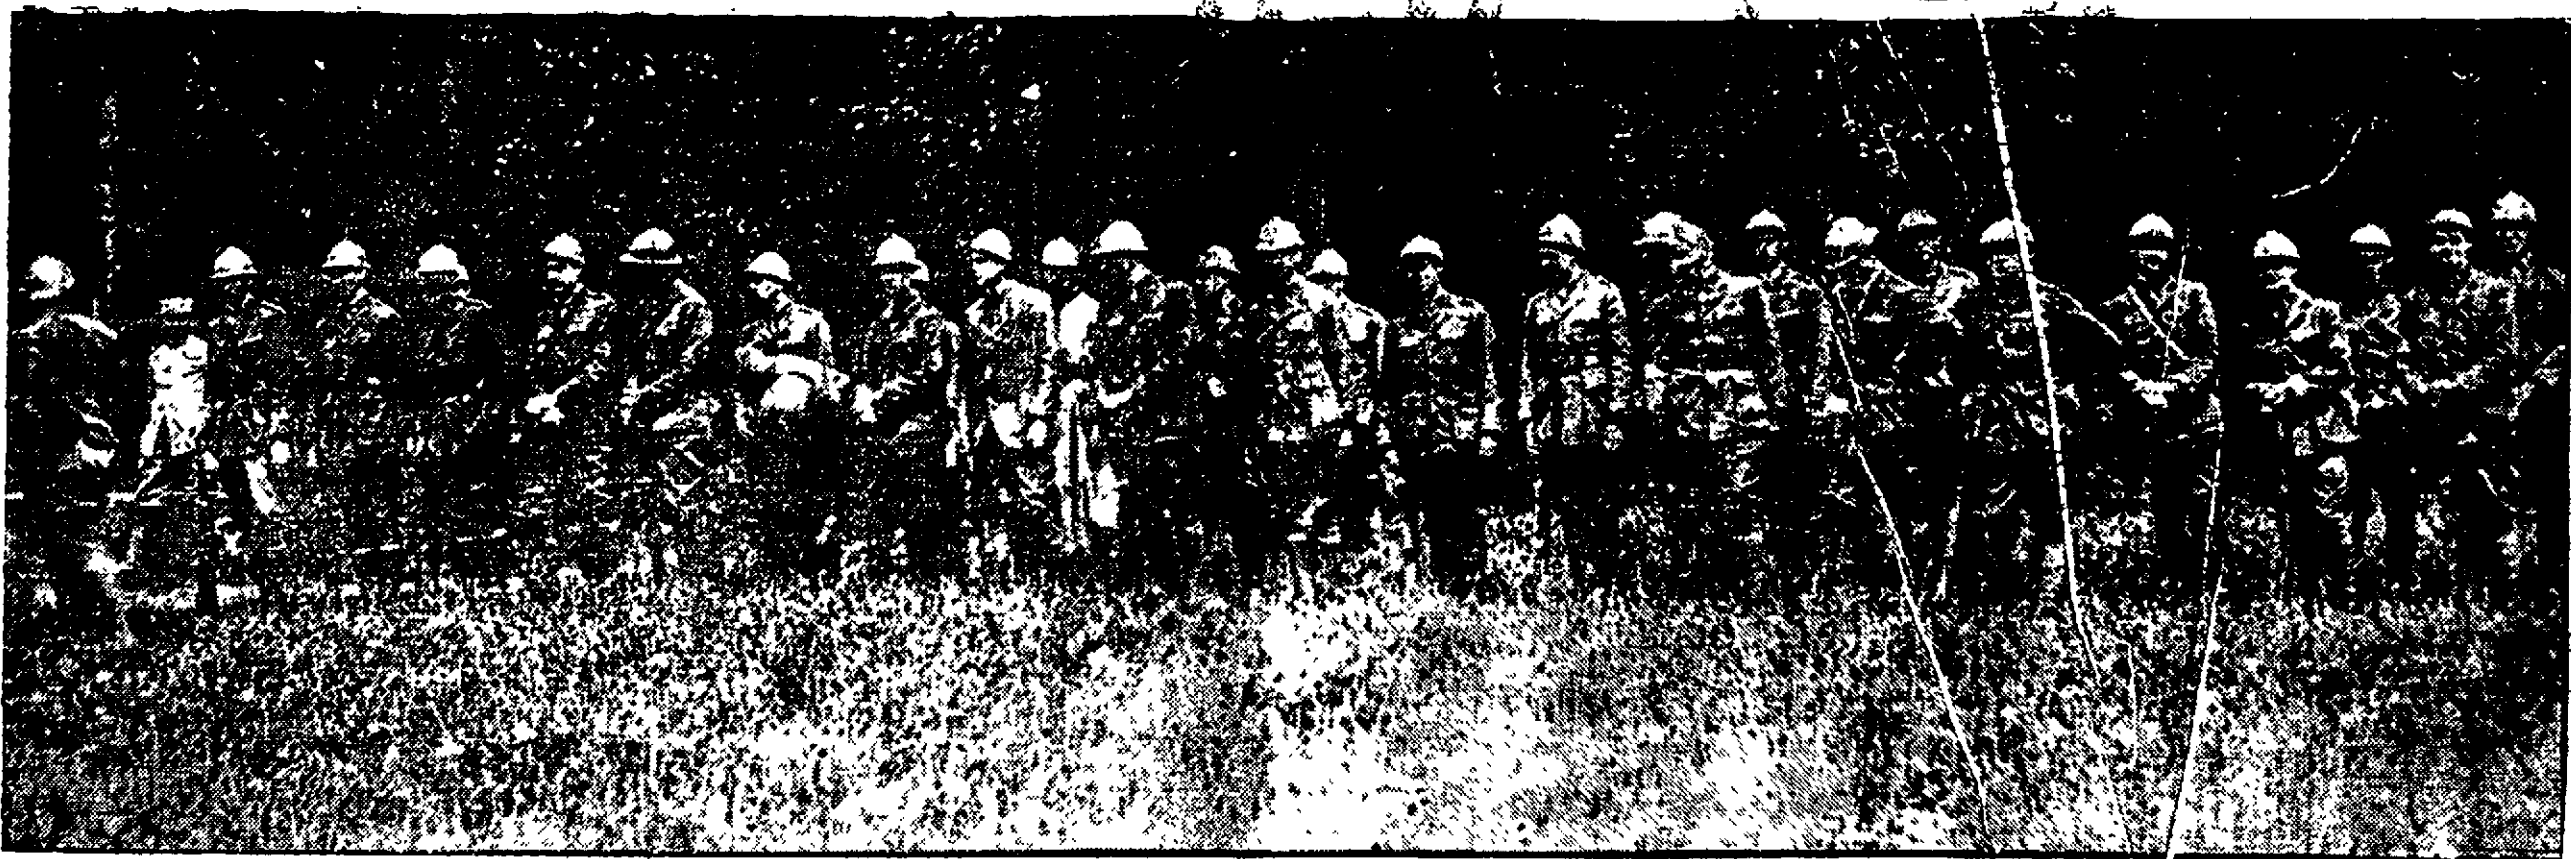

TO VISIT MUNICH.
Copenhagen, June 28.—Emperor Charles and Empress Zita of Austria-Hungary are expected to arrive in Munich on Saturday. The Munich correspondent of the Berliner Tageblatt says the visit of the emperor will be of political, as well as social nature. He will be accompanied by Count Czernin, the foreign minister, and the head of the Austrian military and civil cabinets.

Alsace-Lorraine Delegation Grooms General Pershing

Paris, June 28.—Major General John J. Pershing yesterday received delegations from the Alsace-Lorraine republican committee. The vice president of the committee told the general how proud they were that a descendant of their country had come to fight for the triumph of their inalienable right and the restoration to France of the lost provinces.

General Pershing was moved. He said he was most happy to meet the representatives of the valiant people who had suffered so deeply because of fidelity to their country and that he had a warm place in his heart for Alsace, the land of his father.

First Picture of American Troops in France

American troops are on the firing line in France. This picture is the first in this country. They are shown for the first time wearing metal helmets such as all U. S. troops will wear in Europe. This picture, exclusive from Kenneth Payne, Daily Tribune London correspondent, reaches here before any wire announcement of the presence of armed American troops on the battle front. It is passed by the censors, and so constitutes the first official announcement that our armed soldiers are fighting beside our French and British allies. These troops reached the front May 24 and are commanded by Capt. E. J. Tinkham.

BAER TWO TO ONE SHOT IN FIRST IS POLITICAL DOPE

Forecasters Have Him Elected If He Can Poll Half as Many Votes as Frazier

That the next representative in congress from the First district will be a Nonpartisan leaguer is regarded as a safe two to one shot by shrewd politicians who have carefully sized up the situation. The supreme court's decision as to whether Oliver B. Burness shall or shall not appear on the official ballot as the republican candidate will, in their belief, make very little difference in the result. The presence or absence of the names of Judge Henry G. Vick of Pembina, Frederick T. Cuthbert of Devils Lake and Charles W. Plam of Milton as rival individual republican nominees will have greater effect, for it is fair to believe these gentlemen if they remained on the ballot would receive some votes in spite of their avowed desire to withdraw.

The Real Question.
The real question is whether the First district, which gave Lynn J. Frazier, Nonpartisan republican candidate for governor, 8,000 more votes than it gave Henry T. Helgesen, a straight republican candidate for congress, will "stick" to such an extent as to give John M. Baer, Nonpartisan nominee, a walkaway over a field of at least three opponents, and even those most bitterly opposed to the league and methods adopted in the nomination of Baer are bound to confess the probability of an affirmative answer July 10.

Frazier's Vote in First.
Last November Lynn J. Frazier polled 28,908 votes in the First district. Henry T. Helgesen, republican candidate for congress, received 20,709; George A. Bangs, democratic candidate, 13,236; and V. Grams, socialist, 622. A total of 34,567 votes being cast for congress. Lynn J. Frazier, the league's leading vote-getter, received within 5,659 as many votes as all of the candidates for congress combined. Frazier is a resident of the First district, has thrown his support to Baer and will take the stump for him next week. All of the powerful machinery of the Nonpartisan league is behind Baer. Politically, the league cartoonist is an unknown quantity, but he has the league stamp

of approval, and experience in other contests has proven that to be sufficient.

May Cast 40,000.
It has been predicted that because of the unusual interest in the approaching fight, 40,000 votes will be cast July 10. The assured candidates will be Oliver B. Burness of Grand Forks, republican; H. H. Aaker of Grand Forks, progressive Nonpartisan republican; George A. Bangs of Grand Forks, democrat; and John M. Baer of Fargo, Nonpartisan. Granting Aaker a scattering support of 3,000 votes, and assuming that Bangs will hold a fair proportion of the 14,236 supporters who voted for him last fall, there will be left approximately 25,000 votes to be divided between Burness and Baer, and if Baer, with the league back of him, polls half as many Nonpartisan votes as were cast for Lynn J. Frazier last fall, he will finish a thousand or two to the good and leave Burness third man.

Stiff Fight On.
There is being made on Baer such a fight as Frazier was not subjected to. While MacArthur, Frazier's opponent, had strong support throughout the state, the democratic organization was not back of him as the republican organization in the First is now behind Burness. Old war horses, such as A. T. Kraabel of Cullford, elected lieutenant-governor last fall, with the endorsement of the league, have come out openly for the republican nominee. The Iron, heretofore the only Norwegian publication supporting actively the league propaganda, has declared its neutrality in the present fight. Congressman Halvor Steenerson of the Ninth Minnesota district, it is announced, from Grand Forks will tour the First district in the interests of Burness' candidacy. Lemke's action in endeavoring to put over Baer as the republican candidate has lost the league friends, and there are so many factors entering into the campaign that the result cannot be gauged by past standards.

In spite of all these facts, however, the betting at present favors Baer, simply because it is the belief of astute political prognosticators that league members regardless of party affiliations or the man, will vote for their candidate with a view to conquering the public that the league is not, as has been claimed, "shipping" Burness has a terrific handicap to overcome. He has to his advantage the fact that he is a Norwegian in a district where his people predominate, he has been promised, never regular, never aligned with the old "standpat" organization.

"Will Beat Frazier Vote."
D. C. Coate, campaign manager for Baer, even goes to the extent of predicting that the cartoonist will get more republican votes in the northern counties of the district than Governor Frazier did.

Linton Has Curfew That Works; Mothers Declare it's a Bear

Linton, N. D., June 29.—A common, ordinary brown bear, not a candidate for congress or any other consideration but liberty, is roaming at large somewhere in the environs of Linton, and mothers are finding it less difficult to keep wayward boys home nights. Bruin was brought back from the Peace River country in Montana by H. C. Lynn and A. D. Tough, and he escaped captivity a day or two after his arrival here.

RECEIVING APPLICATIONS FOR WAR BONDS

The employees of the United States treasury department have buried under an avalanche of subscriptions for "Liberty" bonds. The picture shows Miss Marion Richardson, an employee of the department, stamping thousands of telegrams from all parts of the country making application for bonds.

REMITTANCE MAN HITS HOME TRAIL; FAMILY SUFFERS

Slope County Frenchman. Believed to Have Effected Reconciliation Leaves

Marmarth, N. D., June 29.—A romance involving the Bourbons of the old regime is scented in the sudden departure of Emil Plasque, a homesteader living in the rim rock adjacent to the Little Missouri, who stole away in the night following the receipt of a communication bearing a crested letterhead from his father in France. Plasque took with him the only team of horses on the place, a fine pair of blooded animals and left his western wife and two little children alone on their homestead with a meager food supply.

After waiting several days her husband's return, Mrs. Plasque carrying her babes made her way to the Sam White ranch, several miles distant, where she was taken in and cared for. Plasque is reported to have been a remittance man, and neighbors, who have some trusty ropes awaiting his return, believe that the note which caused his departure was a letter from his parents suggesting a reconciliation.

Modern and Medieval Meet When Arrowhead Plugs Motorcar Tire

Inkster, N. D., June 29.—A meeting of the modern and medieval took place here when T. A. Nelson, stopping for a flat tire, found an Indian arrowhead firmly imbedded in the thick rubber.

COUNTY BOARD MUST BOOST FARM LANDS 25 PER CENT NEXT MONTH

Unpleasant Duty Confronts Equalizers as Result of Recent Legislation

County auditors and county commissioners are looking forward with some dread to their July meetings as county boards of equalization, for at this time, under an act of the last legislature they must increase 20 per cent the assessed valuation of all farm lands, city lots and other real property in the state. Such property heretofore has been assessed at 25 per cent of its actual value.

Last winter the legislature in an effort to approach one step further toward single tax adopted a new classification, which increases the assessed valuation of real property to 30 per cent of the actual value, reduces improvements on farms and city lots, livestock, agricultural machinery, etc., from 25 per cent to 20 per cent of the actual value, and household goods, furniture, wearing apparel, stocks, bonds, moneys and credits to 5 per cent.

The state auditor has notified county boards that in making the new equalization they must anticipate tax needs for two years, as it will be impossible to assess real estate again until 1919. He calls attention to the fact that many towns and villages have a low assessment of real property and that these towns and villages if they expect to have money to supply their needs during the ensuing biennium must reverse their previous practice.

Wilkinson has a thoroughly normal cow which he pastures near town and milks twice daily. For the last 10 days he has gone through the motions, but obtained no milk. Confident some friend

or enemy was getting his milk, he left town and arranged to have the pasture closely watched during his absence. The guard remained on duty for 48 hours, during which time no one approached

the cow, and at the end of that period she was found bone dry. Now there are being revived all the stories of bull snakes, king snakes and tango lizards that ever had currency in the cow country.

Columbia Records that should be in your home this "Fourth"

THE world's greatest music right now for all Americans: the songs, the words—the very tunes bound together with all that our Banner stands for today! Let the music of our country be a daily inspiration—make it a new way of "showing your colors." Here are records that will inspire your children with patriotism and love of their country.

"The Star Spangled Banner" Columbia Record A5949, \$1.50

The supreme rendition of our national anthem—a rendition by Graveure, the world-famed baritone, with a thrilling power—a sheer, living force—that lends a new glory to the splendid words. And his singing of "America" is like a ringing trumpet-call to arms! (on the other side).

"The National Emblem March" Columbia Record A1025, 75c

A march with the same kind of big thrill in it that you get when you see the Stars and Stripes. It's true to its name—and so is the stirring march, "Washington Grays March," played by Prince's Band (on the other side).

"American Republic March" Columbia Record A2223, 75c

This is the famous "Inaugural March"—the strains to which our Presidents have marched! Here's inspiration aplenty; and there's a swing in the music of its companion coupling, "The Invincible Eagle March," which suggests the very spirit of victory.

"Battle Hymn of the Republic" Columbia Record A2012, 75c

The great battle-song of our country, sung with matchless fire and enthusiasm by the Columbia Double Mixed Quartette. Coupled with it is "America," its equal in inspiring rendering!

Hear these records, or the Columbia Records of "The Star Spangled Banner," by Prince's Band (A1991, 75c); "Columbia, the Gem of the Ocean," by the Stellar Quartette (A1548, 75c); "Dixie," by the Peerless Quartette (A1764, 75c); and other fine Columbia patriotic selections, and you'll be sure to feel convinced that there are no records like the "music-note" records!

**NORTHERN PACIFIC
MUST GIVE VALUES
OF ITS SNOWFENCES**

Estimates Demanded in Letter
From State Board of Equal-
ization

The physical valuation of a snow fence, the actual worth of all of its depots, roundhouses, shops and section buildings are points upon which the Northern Pacific must inform the state board of equalization not later than Aug. 1. This ultimatum was directed to Mr. Saunders of the Northern Pacific upon unanimous vote of the board of equalization members who attended an informal meeting at the capitol Thursday.

The company earlier in the week had requested permission to omit answers to questions covering these subjects in blanks which the state board has mailed to all railway companies. A Northern Pacific representative informed state officials that the company had never made such valuation and that it possessed no means of procuring the same on short notice.

The board members in attendance yesterday—Governor Frazier, State Auditor Kositzky, Treasurer Steen, Commissioner of Agriculture and Labor Hagan and Attorney General Langer—felt that this information should be forthcoming and directed the secretary to so notify the railway companies.

**BANQUET SUFFRAGISTS
FREED FROM JAIL FOR
PICKETING WHITE HOUSE**

Washington, June 29.—The six women suffragists, who have done three days in jail for picketing the White House, were released today at the expiration of their sentences, and were the heroines at a breakfast given in their honor at the woman's party headquarters.

While police peeped in through the picket fence of the grounds surrounding the suffrage headquarters, the women were admired by a hundred enthusiasts as martyrs to the cause.

The police say they will prevent further picketing by more arrests, and the suffragists threaten to picket as fast as the police can arrest them.

**FEDERAL OFFICER
TO VISIT FARGO**

Fargo, N. D., July 29.—Carl Vrooman, assistant secretary of agriculture of the United States, will be in Fargo Friday, July 27, and deliver an address on food conservation before a mass meeting of college workers, club members and farmers, according to a telegram received yesterday by Dr. E. F. Ladd, president of the North Dakota Agricultural college.

Mr. Vrooman comes to this city from the west coast on his return to the capital after a transcontinental tour.

The telegram from Secretary Vrooman stated that he would not come unless he was assured of a large audience of representative people of the state. He is making this tour in the interest of the president's campaign of food conservation.

Dr. Ladd stated yesterday he would see to it that all the workers of the extension department of the Agricultural college will be in Fargo to hear Mr. Vrooman, that they may get the government's views first hand to disseminate among the people of the state. It is also planned to have as many of the county agents as possible present.

First Pictures of Pershing and Sims in London

Arrival of the American commander in London, showing Gen. Pershing, Ambassador Page, Field Marshal Viscount French, Lord Derby and Admiral Sims. Admiral Sims is in the center.

Gen. Pershing, on his arrival, inspecting the guard of honor, accompanied by Gen. Pittcairn Campbell of the western command, representing the war office.

**FACT THAT SHE WORE
OVERALLS SAVED GIRL**

**Escapes Injury When Auto Turns
While More Conventional
Clad Are Hurt**

Jamestown, N. D., June 28.—The fact that Miss Josephine Pederson wore overalls is credited with her escape from serious injury, when the car in which she was riding with her father and two girl friends overturned and Miss Margaret Gates, one of the passengers, who was more conventionally clad, was seriously injured through being dragged by her garments.

**BANNER YEAR FOR
INSURANCE SAYS
MONTANA LIFE MAN**

That this will be a banner year for life insurance business in the northwest is the opinion of H. R. Cunningham, general manager of the Montana Life, who stopped off in Bismarck yesterday.

yesterday to call on S. D. Cook, state agent, while en route from the imperial shrine meeting at Minneapolis to his home in Helena.

"From 75 to 90 per cent of the business in the northwest is written with farmers," said Mr. Cunningham, "and the extremely high prices which the farmer will receive for his produce will enable him to buy more insurance. The farmer has become a good business man, and no argument is necessary to convince him of the value of life insurance."

CITY NEWS

Walford City Visitor—T. G. Morris of Walford City is a business visitor in the city.

In Mandan—Albert Faeth, clerk at the McKeenle, was in Mandan Thursday on business.

Here from Tuttle—Henry Reimer of Tuttle was among the business visitors in the city Thursday.

Moves Government House—The government weather bureau on Main street has been removed to face the street and to be a farther distance away from the Northern Pacific tracks.

Dr. Taylor Here—Dr. J. D. Taylor of Grand Forks, a member of the state board of regents, is calling on his many friends in Bismarck while attending a formal meeting of the board.

Dies in Local Hospital—Earl Parks, aged two years, son of Mr. and Mrs. A. J. Parks of Coleharbor, died this morning at 7 o'clock in one of the local hospitals. The body will be taken to Coleharbor Saturday.

Banker Brothers Here—T. S. Johnstone, president of the First National bank of Ashley, and his brother, R. S. Johnstone of the Merchants National bank of Mandan were in the city between trains yesterday. The brother bankers are interested in the Mandan institution jointly.

STATE HOUSE NOTES

PERSONAL STAFF—Since his inauguration Governor Lynn J. Frazier has had no personal staff. That lack was supplied today when the executive named as aides, with commissions of colonel and aides de camp Robert Kee of Sanborn, H. A. Ball of Grafton, L. G. Woe of Devils Lake and D. Brandt of Hoople.

ARCHITECTS' BOARD—George Hancock of Fargo, president of the recently organized North Dakota Association of Architects, Robert B. Stacy of Minot and W. F. Edwards of Grand Forks will form North Dakota's first state board of architecture, named by Governor Frazier today, in compliance with Senate Bill No. 24. Introduced by Senator Rowe and passed by the Fifteenth assembly. The first board members serve for terms of two, four and six years, respectively, and their successors each will be named for a period

of six years. The board will meet within 30 days from date and thereafter will hold regular meetings the first Mondays of April and October. It will be the duty of this board to examine, register and license architects whom it finds qualified to practice in North Dakota. Registration or certification as a member of the American Institute of Architects may be accepted in lieu of examination. The state association recently made application for admission to the institute.

**REPORT OF THE CONDITION OF
THE FARMERS STATE BANK**

at Baldwin, in the state of North Dakota, at the close of business June 29, 1917:

SOCIETY

Eleven Boxes for Bismarck
Section of Red Cross Packed

Eleven boxes of the allotted 14 for the Bismarck section of the National Red Cross have been packed and sealed, ready for the removal to France. For several weeks patriotic women of the capital city and the surrounding towns have been sewing articles for this section, which is headed by Dr. E. P. Quain. Since the first order for 14 boxes was assigned to the Bismarck section, a request for additional boxes has been sent out from Washington and it is expected that at least three more boxes will be filled.

When the boxes are completed, each one is numbered and an itemized list is kept of the contents. The work of packing the boxes requires much care. Each garment is sterilized and thoroughly inspected before being placed in the box. This part of the work has been supervised by Dr. Quain and nurses in charge of the work.

Women are now busy sewing at both the Red Cross headquarters in the basement of the new nurses'

home of the Bismarck hospital and the domestic science room of the high school. Bathrobes and nightgowns are among the articles being made this week. The nightgowns are flannellette protectors for convalescents designed by Florence Nightingale, the famous war nurse.

Women of McKenzie and Braddock are making bed shirts for the section and 50 suits of pajamas have been made by the women of Garrison. Wilton women are making 27 suits of pajamas and have taken other work.

Members of the Fortnightly club, St. George's Guild, St. Mary's Sewing Circle and the Thursday and the Monday club will meet Monday afternoon for the same purpose. The Sunday school class of Mrs. N. O. Ramstad of the Presbyterian church are sewing nightgowns this week.

Mrs. P. C. Remington, chairman of the supply committee, is always anxious and willing to give information regarding work for the society. Organizations or individuals wishing to help should communicate with her.

Girl Gets Law for
Mothers' PensionsLILLIAN
PENDELL

While the Arkansas federation of women's clubs failed, Miss Pendell, a 19-year-old high school girl of Fort Smith succeeded in obtaining passage of a mothers' pension law. Aided by Judge Henry Neil, father of the mothers' pension law, the girl induced nearly every legislator singly to vote for the bill.

ture pillows which will be given to the Red Cross. Friday was the day decided upon, and members will meet at the high school for work.

Case-Johnson Nuptials.

A wedding of interest to Morton county residents took place Wednesday evening in the Mandan Presbyterian church manse, when Miss Hilma August Cass became the bride of Theodore Johnson, son of Mr. and Mrs. N. L. Johnson of Flasher. Rev. F. W. Thompson read the service. Miss Agnes Johnson, sister of the groom, and Gilbert Cass, brother of the bride, were the attendants. The bride is well known in educational circles. She is a graduate of the Mandan high school and the Valley City normal, and for the last three years has taught in the Flasher schools. The groom is a well known automobile agent of that place. Mr. Johnson and bride will be at home to their friends in Flasher after July 15.

PERSONALS.

Mrs. P. W. McGillic and daughter of Mandan were in the city Thursday and while here were guests of the former's sister, Mrs. H. T. Murphy of Mandan avenue.

Miss Ida Henzler of Rapid City, S. D., has arrived in the city and is the guest of her brother, C. W. Henzler, and family of Ninth street. Dr. and Mrs. E. P. Quain, daughter, Marian, and son, Buell, of Sixth street, have returned from spending several days at their country home near Wilton.

Miss Odette of Webb Brothers has gone to Linton for a short visit with relatives before going to her home in Aberdeen, to spend the summer vacation.

Ex-Judge and Mrs. C. J. Flak and daughters, the Misses Helen and Doris, of Sixth street, who expected to leave this week for Minot to make

their home, will remain in the city until the middle of July.

Dr. and Mrs. B. D. Rowley of Mandan will leave Monday on a motor tour of Yellowstone National park.

UNDER-CAUGHT HEM RIVALS DRAPED SKIRT

SKIRT IN ZOUAVE STYLE.

By BETTY BROWN.
New York, June 29.—Bewildering over-drapes feature many charming afternoon and evening gowns for women whose figures or tastes demand quieter styles, there is the under-caught hem skirt, with its "under-caught" drapery at the hem. This model is decidedly smart

when combined with a plainly cut but elaborately braided tunic. Moreover, it has the advantage of not becoming immediately popular on account of the large amount of material required for its making. The "under-caught" effect is also used in development of some of the more interesting taffeta evening wraps.

Burnstad M. E. Church
To Be Dedicated Sunday

The handsome edifice of the Burnstad Methodist Episcopal church to be known as the Devereaux Memorial church will be dedicated Sunday with appropriate services. Rev. C. C. Kinder is the pastor.

Dr. J. G. Moore, superintendent of the Bismarck district, will preach the dedicatory sermon. Three services will be held during the day. The trustees of the church are H. J. Shepard, C. P. Burnstad, Charles Hornett, C. Welch, D. L. Hardy, William L. Jackson and George Lubbers.

The program for Sunday follows:

Morning—10:30 O'clock.

Organ Voluntary—Mrs. G. V. Holset.

Song—Congregation.

Invocation—Rev. C. C. Kinder.

Scripture reading.

Solo—Mrs. C. C. Kinder.

Sermon—Rev. James Anderson, D.D.

Song.

Benediction.

Afternoon—2:30 O'clock.

National League Leads American in Output of Baseball Stars This Season

For the first time in many years the National league this season is going to the front in the matter of producing young stars.
Practically every club in the league has given baseball one or more stars this year, Philadelphia being the only outfit which is going ahead without some material changes in the lineup carried last year.
A glance over the box scores shows some of the following new names in the regular line-ups:
Boston—Massey, Rawlings, Whitely, Brooklyn—Hickman.
Chicago—Elliott.
New York—Kilduff, Kelly.
Cincinnati—Cuetto, Neale

St. Louis—Cruise, Long, Smith, Pittsburgh—Bigbee, Pitter.
There are others, of course, but these youngsters have come to the front surprisingly in the opening months of the season and now can be safely said to have reached the stage which has made regular big leaguers of them.
The work of Hickman and Cruise, both at the bat and in the field, has been especially sensational, and during the last two weeks Bigbee's batting has improved tremendously.
Cruise has led the league in batting pretty consistently since the opening of the season and is constantly in-

creasing his lead. Cruise has filled the shoes of the brilliant Bescher in every way. He ranks fifth in the league in base stealing.
Although his record is not so sensational, Hickman is filling a big hole in the losing Brooklyn club. His work in the corner of the garden formerly occupied by Hy Myers is consistent and he is clouting the ball with great regularity.
The surprise of the last two or three weeks has been Bigbee, whose batting during the early part of the year was disappointing. Since Bigbee has been playing the outfit regularly he has been hitting at a .360 clip.

FAIR WILL BOOST BETTER FARM PLANS

Instructive Exhibits in Agricultural Preparedness Promised Visitors at Interstate Show.

The watchword of the United States is "Preparedness" and everybody is urged to increase production in all agrarian pursuits. The Interstate Fair management for the big fair to be held at Fargo, July 23-28, are endeavoring in every way, by their offer of liberal premiums and prizes, to encourage increased production in livestock, poultry and grains.
Appreciating the fact that the eyes of the world are upon the great Northwest, looking to us to provide food for them during the coming year, it must be appreciated by everybody that the educational features of the big Interstate Fair by introduction to the producer of new, up-to-date machinery and new and better ideas in the matter of raising livestock and grains will

greatly enhance the output in all lines of agricultural endeavor. Great interest has been aroused among the state breeders and never in the history of the state of North Dakota has the response been so favorable, nor have stronger or classier exhibits been prepared for showing. This gives a wonderful opportunity to prospective buyers who wish to place pure bred animals on their farms, while a short trip to the big fair will bring them in contact with the greatest herds and breeders in America. Ample stall and pen room have been provided to take care of all exhibits and the management wishes to state that every consideration possible will be shown both the exhibitor and the visitor at the big Interstate Fair.

MOBILIZING MEN FOR FARM LABOR

Uncle Sam Co-Operates With States and Local Committees.

DRAW WORKERS FROM CITIES

Fundamental Unit of Organization is "Community Man" Who First Makes Such Adjustments as Are Possible.

Under Uncle Sam's plan for the organization of farm labor, the details of which have been announced by the United States department of agriculture, provision is made for nationwide co-operation in the solution of the farm help problem.

The plan is based on close co-operation on the part of the United States department of agriculture and the United States department of labor with state committees on national defense charged with labor matters, with the state agricultural colleges, with the county agents, and with county and local or township labor committees or representatives established in every locality. The department of agriculture represents the federal authorities in determining farm labor needs and in assisting in organizing all available farm labor in the rural districts. The department of labor devotes its attention to organizing labor in urban communities and industrial regions, and co-operates with the farm labor forces where necessary by obtaining extra labor from the population centers.

Community Man Most Important.

The plan provides for strictly local handling of all labor problems that can be adjusted locally. The fundamental unit of the organization is the "community man" who, with the assistance of such committees as he may appoint, canvasses his own neighborhood, finds out what farmers need help, and what men are available for supplying the local need, and effects such adjustments as can be made locally. If after all local adjustments have been made, there remains either a deficit or a surplus of labor, he reports to the "county man," whose business it is to effect adjustments between the several communities in his county. The county man, in turn, reports any deficit or surplus to the "state man," who

or surplus to the "state man," who canvasses the situation for the state as a whole and reports to the department of agriculture, which, in close co-operation with the department of labor, is charged with the distribution of mobile labor for the country as a whole.

Thus each unit in the system acts as a clearing house for its own territory, reporting to the units higher up only when it needs help or has help to offer. The plan provides that supplemental reports shall be submitted by each community man whenever changes in the local labor situation make desirable further adjustments that cannot be met with the material at hand, or when a surplus of labor develops which he cannot use.

To Aid Farm Women.

A great many retired farmers, of whom there are 700,000 in the country, may be available for emergency service under this plan of farm labor mobilization. The plans contemplate also the drawing of emergency labor from the cities under the immediate direction of the department of labor, the effective utilization of college students and school boys, and, if necessary, the assignment of volunteer women and girls to rural tasks connected particularly with feeding and caring for harvest hands or other extra labor, or with farm canning or drying of surplus perishable products. In other words, the plan contemplates supplying assistance not merely for field operations, but to farm women during their season of heaviest domestic duties.

SPORT CHATTER

Minor leagues are sure to quit, says a headline. Having heard that for the last four years they will get mad and make good.
Since smashing umpires is getting to be the favorite outdoor sport of ballplayers it might be a good idea to hire Jess Willard, Carl Morris, et al. to umpire a few games.
Washington is after Larry Lajoie. That's quite a boost for Connie Mack, who sent Larry back in the bushes.
Jack Johnson is Barcelona's champion bull fighter. He used to be the world's best bull thrower.
LIFE'S LITTLE WORRIES.
Pittsburgh scribes agree to ignore McGraw.
Kelly won a race at Jamaica the other day. Could you expect anything else of a horse named Kelly?

For the boys in khaki

Bevo
A BEVERAGE

Bevo is a great favorite in the Army Canteens, where none but pure, soft drinks may be sold. After drill or march, you are sure to see a long line of hot and dusty-throated soldier boys making a bee line for Bevo. They know that there lies complete satisfaction, full refreshment and pure wholesomeness.
At home or abroad—at work or play—between meals or with meals, you will appreciate what we have done for you in making this triumph in soft drinks. You will find Bevo at inns, restaurants, groceries, department and drug stores, on the grounds, baseball parks, soda fountains, dining cars, in the navy, at cantenars, at mobilization camps and other places where refreshing beverages are sold.
Bevo—the all-year-round soft drink
Guard against substitution. Have the bottle opened in front of you. First seeing that the seal is unbroken and that the crown top bears the Bevo. Sold in bottles only, and bottled exclusively by

GOOD FIGHT CARD FOR MANDAN RING FANS IS OFFERED

Disciple of Mike Gibbons Who Recently Cleaned Up on Westernman to Meet Benson

Mandan, N. D., June 29—Tomorrow evening Billy Ryan of Mandan will box with Sailor Benson of Fargo. The bout is to be held under the auspices of the Mandan Athletic club and it promises to be one of the fastest fight exhibitions ever held in the western part of the state. Ryan is a clever boxer, having trained with Mike Gibbons of St. Paul, and has had a number of distinguished battles in the ring. A few days ago he put the cleaners on Charlie Westernman in six rounds, although Westernman is a much larger man than Ryan and a trained boxer. Benson is a boxer of considerable reputation and claims he can defeat Ryan in 10 rounds.
Bob Roberts of Bismarck will meet

"CHOPPING WOOD" BENEFICIAL; BRINGS ALL MUSCLES INTO PLAY

By JIM RICE.
"Chopping wood" is an old exercise I learned as a young man up in Canada in the summer time. I don't mean chopping real wood with a real axe, but just going through all the movements of a man felling a tree.

Take up a stand as you would if you were about to commence to fell a big oak. Hack away at the old trunk with all the vim you can command. Imagine yourself a champion lumberman giving an exhibition of chopping against time. Keep putting your feet in different positions as if you were moving in order to get a better position for hacking.

When you begin to get puffed and tired start working away with the axe from the other shoulder. This will bring into play a different set of muscles than you were using at first and you will be able to continue at your task with comparative freshness.

After about 10 minutes of this strenuous exercise you will at first have had about enough. You will probably be in a good perspiration and ready for the cold shower and rub down with a rough towel.

Leo McDonald in a fast bout boxing exhibition in the semi-windup. Roberts is the son of Orris W. Roberts of Bismarck and is an amateur boxer of considerable ability. McDonald recently returned home from St. Thomas, where he had been attending college and where he was in the habit of toying his mates at will. He boxed a few evenings ago with John Kennedy of this city and showed real speed and science.
It is expected that a large crowd will be present at the athletic show, which will be held at the M. A. C. hall.

Right now there are enough prominent exhibitors who have promised to display their stock in the Swine Department to insure the fair visitors the greatest sight in this line that has ever met their eyes. There will be many famous prize winners on display and competition in this department will be exceptionally keen.

The Outbursts of Everett True By Condo

URGE BANKERS TO BOOST PIG CLUBS

Uncle Sam's Agricultural Experts Seek Increase in Country's Meat Supply.

30,000 BOYS NOW MEMBERS

Work of Encouraging Young Farmers Has Grown Rapidly in Few Years—Two Methods of Financing Followed.

Since hogs afford the quickest means of increasing our meat supply, continued and extended efforts of public-spirited bankers in furthering the organization of pig clubs by advancing to club members the money needed for the purchase of purebred sow pigs is doubly desirable at this time, according to Uncle Sam's agricultural experts.

Pig clubs have increased very rapidly during the past seven years, the specialists point out. In 1910 there were 50 members in the United States; today the number exceeds 30,000, found principally in Arkansas, Alabama, California, North Carolina, Louisiana, Georgia, Texas, Oregon, Oklahoma, Nebraska, Kentucky, Indiana, and Massachusetts. These states contained 21,673 members last year, but pig clubs are being formed rapidly in other states. The demand for gilts and bred gilts by club members is unprecedented, even at the high prices at which they are held.

Financial assistance to the pig club members has been the means of introducing purebred hogs in places where otherwise this might have been impossible, and has helped to build up the agriculture of the communities which the banks serve. These clubs stand not alone for greater pork production. By increasing the amount of live stock they encourage the production of much of the feed on the farm, and as their activities are coincident with or follow club work in the growing of corn and forage crops, they are part of a system that favors a sound diversity in agriculture and a rotation of crops that will maintain the fertility of the soil.

Two Plans Followed.

Two plans have been followed by bankers in providing the sow pigs necessary to enable the boys and girls to engage in pig work. One method is the so-called promissory note plan. The banker makes individual contracts with the pig club members. In each case he agrees to lend them a certain sum of money at 8 per cent interest for one year, or longer if necessary. The member agrees to keep up a membership in a pig club, to invest the loan under the direction of the county agent or county club representative, and to repay it at maturity out of the proceeds of the sale of the original stock or the increase. As security for the loan, the banker takes the member's promissory note. The member's parent consents to the contract, in writing and agrees not to claim any right in the pigs purchased or their proceeds.

The other method is called the "endless-chain" plan. This also involves individual contracts. The banker agrees to furnish a registered sow pig. The boy or girl agrees to join a local pig club, obey its rules, care for the

sow according to instructions, breed her at not less than eight months of age to a registered boar of the same breed, raise the litter according to the rules of the club, and deliver to the banker two choice gilts (not less than eight weeks old) from the first litter. The member agrees also to take out registration papers for all the first litter pigs not sold for immediate slaughter. When these agreements are met, the original sow and the remaining pigs become the member's property. If the member is unable to return two sow pigs out of the first litter the agreement continues until this is possible. If the original sow dies before farrowing a healthy litter the banker bears the loss. If the member does not fulfill all agreements, rights to the sow and her progeny are forfeited. The parent agrees to the contract, in writing, and acknowledges that the sow and increase shall belong to the boy or girl.

Endless Chain Established.

When the banker receives the two sow pigs from the member and puts them out with other boys or girls under the same agreement, the endless-chain feature of the activities is set in motion. This plan may be varied in details to suit conditions. For instance, the banker may require the return of only one sow pig, and stipulate that the boy or girl must join a corn or peanut club, raise at least half an acre of green feed, and exhibit the sow and her offspring at the county fair or live-stock show.

Under similar arrangements, boys have received calves to raise, and both boys and girls have received eggs of purebred chickens for hatching.

It is urged by Uncle Sam's experts that bankers in the South who have taken part in these projects heretofore continue their aid, and others, both in the North and in the South, take up the work, as it is a patriotic duty at this time to increase the nation's supply of food.

OFFERS MUCH TO DAIRYMEN

Although the gross revenue from dairy products in the state of North Dakota runs into the millions of dollars, yet the dairy industry in the state is only in its infancy and the new Dairy Building at the Interstate Fair for Fargo, July 28, is primarily designed to stimulate the interest of the farmer along the lines of increased production of dairy products. Working in conjunction with the state dairy commissioner, Mr. L. J. Osterhaus, who will have charge of the exhibit, the management is confident that the exhibit of this department will this year far surpass any showing ever made in the state. This department was very popular last year and from present indications will be one of the biggest features at this year's fair.

As an added incentive in this department, Director S. F. Crabbe of the dairy and livestock departments is offering a purebred Jersey calf, valued at \$100, for the best five pound jar of dairy butter made by a girl between the ages of 12 and 18 years, residing on a farm in Cass county, North Dakota, and having attended a public school for at least three months since September 1, 1916.

WERNER COMES TO TAKE FALL FROM CHAMPS

Fast Aggregation From North Branch Will Meet Colts in Two Games Here

Werner, which has taken games from both Halliday and Stanton, acknowledged one of the stiffest propositions the slope has to offer in baseball goods, comes tomorrow for two games with the Capital City Champs. The first contest is scheduled for 5:15 tomorrow evening and the second for 3:30 Sunday afternoon.

"Smoky" Jones, former Northern league star, will be on the sending end for Werner. Jones has never performed on the local diamond, is said to be a wonder, and Kirk's sluggers are anxious to connect with some of his twisters.

BOARD OF REGENTS IN SESSION HERE TO TAKE UP BIENNIAL BUDGETS

Full Attendance of Members Considering Expenses for Ensuing Two Years

The state board of regents is in session at the capitol for the consideration of budgets for the experiment station at the Agricultural college, the state normal at Valley City and the state school of forestry at Bottineau. Other important matters are expected to come before the meeting, which will be the last held by the board before the beginning of a new fiscal year next Monday.

Members here today are Lewis F. Crawford of Sentinel Butte, president; Dr. J. D. Taylor of Grand Forks, former Governor Frank White of Valley City and J. A. Power of Leonard. Emil Scow of Bowman will be in on an early train tomorrow morning. Scow and Power are the two members whose terms will expire July 1, unless it should be held that they continue in office until successors are legally appointed by and with the consent of the senate. It will be recalled that the senate last winter approved none of Governor Frazier's five nominations for members of the board of regents.

JONES, LARSON, NICHOLS OUTFIT CLEANS UP WITH BEST STACKHOUSE BUNCH

One of the most desperate baseball battles ever fought on a Bismarck diamond was waged at the city ball

grounds last evening, when the Jones-Larson-Nichols aggregation literally mopped the earth with the Best Stackhouse bunch of backlotters. Dock Stackhouse today declined to discuss the slaughter, so it becomes necessary to accept the word of B. E. Jones for the score and he states that he quit counting when his team had made 14 round trips. Jobb Larson was more liberal, giving the opposing team credit for 12 runs. Stackhouse is accused of ringing in a professional pitcher from St. Paul. This alleged professional developed a spay in his working wing, and the J-L-N crew found everything he fed to the plate.

COURT FINDS LINEMAN HAD RECEIVED DAMAGES

Verdict for Defendant Directed in Suit Against Western Electric Company

Jamestown, N. D., June 29.—Judge J. A. Coffey yesterday directed a verdict in favor of the defendant in the case of Ed Gilmore, formerly of this city, vs. the Western Electric company of Jamestown after the case had been on trial three days in district court. Gilmore was suing the Western Electric company for \$20,000 damages for loss of four fingers when his hand came in contact with a live wire while in the employ of the company. It was proved conclusively that the company previously settled for the damage sustained in the amount of \$1,200.

JAMESTOWN PIONEER SUMMONED THURSDAY

Mrs. Johanna Corell Passes Away at Age of 75—Young Girl Answers Call

Jamestown, N. D., June 29.—Mrs. Johanna Corell, 75, pioneer of Jamestown since 1883, passed away at her home here yesterday morning, death being due to complications. She is survived by four children. Funeral services were conducted here this afternoon, interment being made at Highland Home cemetery.

Young Girl Called. Miss Anna Matild Flecher, 14, daughter of Mrs. M. G. Flecher of Streeter, died at the Parkview hospital here yesterday morning of appendicitis. The remains have been shipped to Streeter for burial.

STATE WILL CLOSE FISCAL YEAR WITH MONEY IN THE BANK

North Dakota will close its fiscal year with all current bills paid and quite a lot of money in the bank. The Nonpartisan administration enters upon its first biennium with state finances in excellent condition. The auditing board this week approved all items for salaries and other current expenses and directed them paid, and the treasurer has plenty of money with which to cash the vouchers.

SPRING TIRES SHOW GERMAN RUBBER SHORTAGE

Shortage of rubber in Germany has forced automobile manufacturers to invent a new form of tire. Springs replace the rubber. The auto here shown is a German staff car equipped with the all spring wheels.

First Canadian Woman Legislator Formerly Flickertail Resident

Devils Lake, N. D., June 29.—Mrs. Louise Crumphy McKinnay, elected to the Alberta assembly, is the first Canadian legislator in Canada, formerly resided in Devils Lake, coming to North Dakota from Ontario in 1892 and spending two years as an organizer for the W. C. T. U. before her marriage here to James McKinnay, a farmer, with whom she moved to Clearholm, Alta., in 1903.

STATE AUDITOR CALLING IN WOLF BOUNTY BILLETS

Wolf bounties representing the destruction of thousands of varmints and entitling their holders to several times as many thousands in bounties, have been called in by State Auditor Kostitzky for registration. They will later be returned to the owners to be held for two years, when, it is hoped, the 1919 legislature will provide for their redemption, a detail which to last assembly overlooked when it repealed the old bounty law and appointed a state policeman instead.

MARY PICKFORD PICTURE FAILS TO ARRIVE

The Mary Pickford picture, "Less Than the Dust," scheduled to be shown last evening at the Auditorium, failed to arrive in time for the opening houses of the season. The delay was caused by the lateness of the train.

Manager Veasman announced today that the attraction would be booked here for a later date.

NOTICE TO CITIZENS OF BISMARCK CONCERNING REMOVAL OF GARBAGE

On June 12, 1917, the City Commission let a contract for garbage removal. You are required to provide your selves with metal covered garbage receptacles. You must keep these garbage cans in a place where they can be reached easily by the collectors. The health of the community demands that all garbage be collected regularly and we ask that you cooperate with the city in making this collection a success. The ordinance further provides that any violation is punishable by a fine of not less than \$5 and not more than \$25. Have your cans ready for the collector when he calls.

C. L. BURTON, City Auditor. (5-18, 20, 22, 25, 27, 29)

NOTICE TO THE PUBLIC

Owing to the June rise and turbidity of the river water at this time, all water for drinking purposes should be boiled.
Signed: DR. F. B. STRAUSS, City Health Officer.

To the Wife of One Who Drinks

I have an important confidential message for you. It will come in a plain envelope. How to conquer the liquor habit in three days and make home happy. Wonderful, safe, lasting, reliable, inexpensive method, guaranteed. Write to Edw. J. Woods, 1423 N. Station St. New York, N. Y. Show this to others.

RECORD FOR SUMMER FILINGS BROKEN AT CITY LAND OFFICE

Average Claims Recorded Now in Excess of 1600 Acres Daily —Big Homesteads

Filings at the Bismarck Land Office are averaging more than 1,600 acres daily, an exceptional record for this section of the state, where comparatively little federal land remains open to settlement. One of today's homesteaders was Miss Cora Sofia Olson, unmarried and with a first claim on 320 acres of good land in the Standing Rock reservation. Miss Olson's postoffice address is Balfour, Sioux county, N. D.
The exact total of yesterday's filings was 1,621.35 acres. Herman J. Riecke of Price filed on 40 acres in Oliver county. Rudolph Kemisch of Mercer on 61 acres in Sheridan county; James A. Peterson of Balfour, on 490 acres in Sioux county; Frank E. Colley of Shields, on 50 acres in Sioux county, and Olaf Olsson of Balfour, on 640 acres in Sioux.

ROOT GETS ASSURANCES THAT RUSSIAN ARMY WILL FIGHT TO FINISH

Petrograd, June 29.—Elhu Root and Foreign Minister Terestshenko returned to Petrograd yesterday after a brief visit to staff headquarters, where they were welcomed by General Brusilov in the name of the Russian army, which the commander-in-chief said, would continue with all its power not only to fight for its own cause, but at the same time would hand to hand fight with America for the right of all nations to make their destinies in accordance with their own desires.

WHEREAS, It is deemed necessary by the City Commission of the city of Bismarck, North Dakota, that sidewalks be constructed in the city of Bismarck, as herein specified:

THEREFORE, BE IT RESOLVED, that sidewalks be and the same are hereby ordered to be constructed in front of or adjoining the following described property situated in the city of Bismarck, and the City Auditor is hereby instructed to notify the owners of said property in the manner prescribed by law of the action of the City Commission.

South side of lots 7 to 16, inclusive, block 16, McKenzie addition to city of Bismarck, N. D.

AND BE IT FURTHER RESOLVED, That the said sidewalks must be constructed in accordance with the provisions of ordinances now in force and effect and not later than the 15th day of July, 1917, and should said sidewalks not be constructed by the date herein set forth, then said walks are hereby ordered to be constructed by the city contractor in accordance with the statutes in such case made and provided.

Dated July 25, 1917.
C. L. BURTON, City Auditor.

CITY NEWS

From Aberdeen.—Mrs. B. Aldrich, proprietor of one of the leading hotels at Aberdeen, is in Bismarck, a guest of Mrs. C. E. McCormick.

Visits Her Brother.—Miss Bertha Wecker of Taylor, formerly stenographer in the district offices of the North Dakota Independent Telephone company here, was in Bismarck yesterday, calling on her brother, John Wecker, a member of Co. K, Dickinson, quartered at Fort Lincoln.

Home from Vacation.—Miss Alexandra Peterson of the library commission staff is home from Minneapolis and Pembina, where she spent two weeks' vacation.

Investigate Plant.—Commissioner of Insurance A. S. Olness has returned from Cleveland, whither he went to investigate one of the wind electric plants patented and manufactured by Joseph Mankowski of Wyndmere. A plant has been installed for some time at Cleveland, where it supplies power, generated by windmill, to a large farm, blacksmith shop and other enterprises. The plants have storage capacity sufficient for six days and can operate on a ten-mile wind. It is said that the Cleveland mill has never been out of operation since it was installed. It is seldom that the
